

Table of Contents

| <u>Unit</u> | <u>Page</u> |
|--|-------------|
| 1. <u>Solids and Liquids</u> | 1 |
| (Lesson 1 - 7) | |
| Types of Intermolecular Forces | 2 |
| Phase Changes | 8 |
| The Solid State | 19 |
| 2. <u>Behavior of Solutions</u> | 25 |
| (Lessons 8 – 11) | |
| Properties of Solutions | 26 |
| Concentration of Solutions | 28 |
| Colligative Properties | 32 |
| Ideal vs. Real Solutions | 40 |
| 3. <u>Chemical Kinetics</u> | 41 |
| (Lessons 12 – 15) | |
| Factors Affecting Reaction Rates | 42 |
| Orders of Reactions | 46 |
| Reaction Mechanisms | 56 |
| 4. <u>Introduction to Chemical Equilibrium</u> | 57 |
| (Lessons 16 – 20) | |
| Foundations | 58 |
| Le Chatelier's Principle | 64 |
| A Survey of Problems | 65 |
| 5. <u>Acids and Bases</u> | 73 |
| (Lessons 21 – 24) | |
| A Review of Solutions | 74 |
| The Nature of Acids and Bases | 75 |
| The Meaning of pH | 83 |

| | | |
|----|--|-----|
| 6. | <u>Acid-Base Equilibria</u> | 89 |
| | (Lessons 25 – 35) | |
| | Hydrolysis of Salts | 90 |
| | Buffers. | 93 |
| | Titration Curves (numerous) | 101 |
| | The Work of Indicators | 110 |
| | Polyprotic Acids | 112 |
| | A Survey of Problems | 117 |
| 7. | <u>More Aqueous Equilibria – Solubility Products</u> | 121 |
| | (Lessons 36 – 38) | |
| | Writing the Expression | 122 |
| | Molar Solubility | 123 |
| | Predicting Solubility | 125 |
| | The Common Ion Effect | 127 |
| | Separating Ions | 128 |
| | Effects of pH | |
| | <u>More Aqueous Equilibria – Complex Ions</u> | 133 |
| | (Lessons 39 – 41) | |
| | Definitions | 134 |
| | Naming Complex Ions | 135 |
| | Solubility and Complex Ions | 136 |
| | A Survey of Problems | 138 |
| 8. | <u>Thermodynamics</u> | 141 |
| | (Lessons 42 – 45) | |
| | Spontaneity | 143 |
| | ΔS | 145 |
| | ΔG | 148 |
| | The K_{eq} | 151 |
| | A Survey Problem | 156 |
| 9. | <u>Electrochemistry</u> | 157 |
| | (Lessons 46 - 49) | |
| | Introduction | 158 |
| | Voltaic Cells | 160 |
| | Electrolytic Cells | 168 |
| | Corrosion | 170 |
| | A Survey of Problems | 172 |

| | | |
|-----|---|-----|
| 10. | <u>Nuclear Chemistry</u> | 175 |
| | (Lessons 50 - 52) | |
| | Introduction | 176 |
| | Nuclear Stability | 177 |
| | Disintegrations | 180 |
| | Fission vs. Fusion | 184 |
| | Uses of Radioactivity | 187 |
| | | |
| | <u>Appendix</u> | 189 |
| | Table of Common Oxidation Numbers | 191 |
| | Activity Series of the Elements | 193 |
| | Solubility Rules | 195 |
| | Select Solubility Product Constants | 195 |
| | Select Reduction Potentials | 197 |
| | Equilibrium Constants for Select Weak Acids | 199 |
| | Equilibrium Constants for Select Weak Bases | 199 |
| | Table of Selected Indicators | 201 |
| | Periodic Table of the Elements | 203 |
| | (also on inside front cover) | |
